▼ **LC 1 Detail Sheet**

Life Course (LC 1) - Adequate Health Insurance Coverage	The percent of programs promoting and/ or facilitating adequate health insurance coverage.
Performance Measure	The percent of MCHB funded projects promoting and/ or facilitating adequate health insurance coverage.
Goal	To ensure supportive programming for adequate health insurance coverage.
Level	Grantee
Domain	Life Course/ Cross Cutting

Definition	Participants are identified as not insured if they report not having any of the following: private health insurance, Medicare, Medicaid, Children's ... Show more
Benchmark Data Sources	Related to HP2030 AHS-01: Increase the proportion of people with health insurance (Baseline: 89.0% of persons under 65 years had medical insurance in 2018; Target: 92.1%); Show less
Grantee Data Sources	Grantee data systems
Significance	Inadequately insured children are more likely to have delayed or forgone care, lack a medical home, be less likely to receive needed referrals and care coordination, and receive family-centered care. Approximately 27% of American children were not adequately insured in 2018-2019. Show less

TIER 1 (REQUIRED)

In this section, the grantee must respond to the following question(s):

1. *Are you promoting and/or facilitating adequate health insurance coverage in your program?* The grantee must select either Yes or No. If the grantee selects No, they must justify their selection in the *Comments* section.

Note the following requirements and additional information before completing this section:

- For **New Competing Performance Reports (NCPRs)**, the grantee is required to fill out Tier 1. Grantees cannot complete subsequent tiers in the NCPR.
- For **Non-Competing Continuation Reports (NCCPRs)** and **Project Period End Reports (PPERs)**, the grantee is required to fill out Tier 1 and may only proceed to the next tier after providing a response.

Figure 3: Life Course 1: Tier 1

The screenshot shows a survey question titled "Tier 1". The question is: "★ Are you promoting and/ or facilitating adequate health insurance coverage in your program?". There are two radio buttons: "Yes" (selected) and "No". Below the question is a "Comments" section with a text area. The text area contains the placeholder text "(If 'No', then please enter explanation here)". At the bottom of the text area, it says "0/5000 characters". There is a green circular icon with a white 'G' in the bottom right corner of the text area.

TIER 2 AND 3 (REQUIRED)

In this section, the grantee must respond to the following question(s):

1. Through what activities are you promoting and/ or facilitating adequate health insurance coverage? Select all that apply.

Note the following requirements and additional information before completing this section:

- The grantee may proceed to the next field only after responding to the required questions.
 - Tier 2 is required for Non-Competing Continuation Performance Reports (NCCPRs) and Project Period End Reports (PPERs).
 - For **New Competing Performance Reports (NCPRs)**, users are only required to fill out Tier 1.
 - The grantee may proceed to the next tier only after responding to this question.
 - For all the checkboxes selected by the grantee in Tier 2, the corresponding options are enabled and required under Tier 3.
 - The corresponding values for the unchecked boxes under Tier 2 are disabled under Tier 3.
2. Please check all population domains that you engage in each activity listed in Tier 2 related to

adequate health insurance coverage. For those activities or population domains that do not pertain to you, please leave them blank: Select all that apply.

3. **Activity Data Collection Form:** How many are reached through those activities?

Life Course (LC 2) - Tobacco and eCigarette Use	The percent of programs promoting and/ or facilitating tobacco and eCigarette cessation.
Performance Measure	The percent of MCHB funded projects promoting and/ or facilitating tobacco and eCigarette cessation, and through what processes.
Goal	To ensure supportive programming promoting and/ or facilitating tobacco and eCigarette cessation.
Level	Grantee
Domain	Life Course/ Cross Cutting
Definition	Smoking includes all tobacco products and e-cigarettes.
Benchmark Data Sources	Related to HP2030 MICH-10: Increase abstinence from cigarette smoking among pregnant women. (Baseline: 93.5% in 2018, Target: 95.7%). Related to HP2030 TU-15: Increase smoking cessation success during pregnancy among females. (Baseline: 20.2% in 2018, Target 24.4%). Show less
Grantee Data Sources	Grantee data systems
Significance	Women who smoke during pregnancy are more likely to experience a fetal death or deliver a low birth weight baby. Adverse effects of parental smoking on children have been a clinical and public health concern for decades. Children have an increased frequency of ear infections; acute respiratory illnesses and related hospital admissions during infancy; severe asthma and asthma-related problems; lower respiratory tract infections; and SIDS. ▼ LC 3 Detail Sheet

Life Course (LC 3) - Oral Health	The percent of programs promoting and/ or facilitating oral health.
Performance Measure	The percent of MCHB funded projects promoting and/ or facilitating oral health, and through what activities.
Goal	To ensure supportive programming for oral health.
Level	Grantee
Domain	Life Course/ Cross Cutting
Definition	No Further Definitions.
Benchmark Data Sources	Related to HP2030 OH-8: Increase the proportion of children, adolescents, and adults who use the oral health care system (Baseline: 43.3% in 2016; Target: 45.0%). Related to HP2030 OH-9: Increase the proportion of low income youth who have a preventive dental visit (Baseline: 78.8% of children aged 1 through 17 years who reside in households with income less than 200 percent of the federal poverty level received a preventive dental service in 2016-17; Target: 82.7%). Show less
Grantee Data Sources	Title V National Performance Measure #13
Significance	Oral health is a vital component of overall health and oral health care remains the greatest unmet health need for children. Insufficient access to oral health care and effective preventive services affects children’s health, education, and ability to prosper. To prevent tooth decay and oral infection, the American Academy of Pediatric Dentistry (AAPD) recommends preventive dental care for all children after the eruption of the first tooth or by 12 months of age, usually at intervals of every 6 months. Preventive dental care in pregnancy is also recommended by the American College of Obstetricians and Gynecologists (ACOG) to improve lifelong oral hygiene habits and dietary behavior for women and their families.
