This user guide describes the steps you need to follow to submit a Look-Alike Renewal of Designation (RD) application to the Health Resources and Services Administration (HRSA).

1. Starting the Look-Alike Renewal of Designation Application

You must have an Electronic Handbooks (EHBs) user account to create a Look-Alike application (also known as a Renewal of Designation or RD). After logging into EHBs, click the Tasks tab on the EHBs Home page to navigate to the **Pending Tasks – List** page.

IMPORTANT NOTE: If you do not have a username, you must register in EHBs. Do not create duplicate accounts. If you experience log in issues or forget your password, contact the [Health Center Program Support](#) at (877) 464-4772.

Locate the Look-Alike RD application using the EHBs Application tracking number received in an email and click the **Start** link to begin working on the application in EHBs (if you have previously accessed the application, the **Start** link will be replaced with **Edit**). The system opens the **Renewal of Designation Application - Status Overview** page of the application (**Figure 1**). The application consists of the Cover Page, Appendices, and Program Specific Information sections. You must complete these sections to submit your application to HRSA.

4.1.2.2 Completing 2b. Service Area Type section

The **Service Area Type** field (**Figure 7, 2**), indicates whether the service area is urban or rural. If the service is rural indicate if it is sparsely populated. If sparsely populated is selected, rural must be selected. Also, for sparsely populated specify the population density by providing the number of people per square mile (values must range from .01 to 7).

4.1.2.3 Completing 2c. Patients and Visits

4.1.2.3.1 Unduplicated Patients and Visits by Population Type

To complete this section, follow these steps:

1. Answer the question, 'How many unduplicated patients are projected to be served by End of Designation Period' (**Figure 8, 1**).
2. The system will auto-populate the number in the Total row of the Patients column under the Projected by End of Designation Period heading (**Figure 8, 2**) when the user clicks on the Save or Save and Continue button.
3. Patient data under the Current Number heading (**Figure 8, 3**) is pre-populated as N/A because Uniform Data System (UDS) for the Total and the Population Types corresponding to the subprograms selected on the [Cover page - Select Target Population\(s\)](#) section of this application is not available.
4. The Total Visits under the Current Number heading (**Figure 8, 4**) is pre-populated as N/A as the Uniform Data System (UDS) is not available.
5. The number of patients and visits under the Projected by End of Designation Period heading for each Population Type that corresponds to the subprograms selected in the [Cover page – Select Target Population\(s\)](#) section of this application, should be greater than zero. For the remaining Population Types, you may provide zeros if there are no projections. You may also provide data for the Population Types beyond those selected on the Cover page.

Across all Population Type categories, an individual can only be counted once as a patient.

4.1.2.3.2 Patients and Visits by Service Type

To complete this section, follow these steps:

1. Patients and Visits under the Current Number heading (Figure 9, 1) are pre-populated as N/A as the Uniform Data System (UDS) for each Service type is not available.
2. Provide the number of patients and visits under the Projected by End of Designation Period heading for each Service Type (Figure 9, 2). After completing all sections of Form 1A: General Information Worksheet, click the Save and Continue button to save your work and proceed to the next form.

• Total Vision Services	N/A	N/A		
• Total Enabling Services	N/A	N/A		

IMPORTANT NOTES:

‘UDS/Baseline Value’ refers to the number of patients and visits for the proposed service area at the time of application.

Projected Patients and Visits for Medical Services must be greater than 0.

In the Patients and Visits by Service Type section, Projected Medical Patients (by end of designation period) must be greater than the projected number of patients for each of the other service types.

Project the number of patients and visits anticipated within each Service Type category by the end of the designation period.

To maintain consistency with the patients and visits reported in UDS, do not report patients and visits for vision or pharmacy services, or services outside the proposed scope of project. Refer to the Scope of Project (<http://bphc.hrsa.gov/about/requirements/scope>) policy documents.

The Patients and Visits by Service Type section does not display total values since an individual patient may be included in multiple Service Type categories.

Providing numbers for all the Service Types is required. Zeros are acceptable, except Total Medical Services.

4.2.1 Completing the Form 4 sections

To complete the **Race and Ethnicity**, **Hispanic or Latino/a Ethnicity**, **Income as a Percent of Poverty Level**, and **Primary Third-Party Medical Insurance** sections (**Figure 11, 1, 2, 3, 4**), enter the **Service Area Number** (**Figure 11, 6**) and **Target Population Number** for each of the respective categories (**Figure 11, 7**).

IMPORTANT NOTES:

Target Population data is a subset of Service Area data, and in most cases, is a greater than the number of patients projected on Form 1A. Patient data should not be used to report target population data since patients are typically a subset of all individuals targeted for service.

The 'Service Area Percentage' and 'Target Population Percentage' are auto populated.

If information for the service area is not available, extrapolate data from the U.S. Census Bureau, local planning agencies, health departments, and other local, state, and national data sources. Estimates are acceptable.

Data on race and/or ethnicity collected on this form will not be used as a designating factor.

When entering data, the total Service Area Numbers for the Race and Ethnicity, Hispanic or Latino/a Ethnicity, Income as a Percent of Poverty Level, and Primary Third-Party Payment Source sections should be equal. Likewise, the total Target Population Numbers for each of these categories should be equal.

To automatically calculate the Total Service Area Numbers and Total Target Population Numbers for all four sections, click on the Save and Calculate Total button (**Figure 11, 8**) under any of the sections.

Completing the Special Populations and Select Population Characteristics section

1. Under the Special Populations and Select Population Characteristics section (**Figure 12**), enter the **Service Area Number** and **Target Population Number** for each special population group listed.
2. If you select the target population related to special populations (i.e., MHC, HCH, and/or PHPC) in the **Cover Page** form of this application, you must provide a Service Area Number and Target Population Number that is greater than 0 for the following line items under the Special Populations section on **Form 4** as applicable: Migratory/Seasonal Agricultural Workers and Families, People Experiencing Homelessness, and Residents of Public Housing.
3. In the 'Other' row (**Figure 12, 1**), specify a population group that is not listed (if desired), and enter the Service Area Number and the Target Population Number for the specified population group.
4. Individuals may be counted in multiple special population groups, so the numbers in this section do not have to match those in the other sections of this form.
