

Understanding the new Notice of Award (NoA)

As of June 11, 2021, the DUNS number has been replaced with the UEI, in many places in the EHBs. For more information please check out: [Transition to Unique Entity Identifier \(UEI\)](#)

Overview

As of October 1, 2020, the NoA will be in the new Standard HHS Page 1 format, used by all HHS agencies to provide universal, streamlined data.

Background

Previously, each HHS agency had their own NoA format, causing difficulty for grant recipients when managing multiple awards from different agencies. The standard page 1 of the NoA provides consistency for grant recipients and a way to digitally receive or extract NoA data from Federal grant systems, allowing data to be easily loaded into grant recipient systems/tools.

Benefits to grant recipients and HHS include:

- Reduce grant recipient burden and allow for more process automation
- Decrease complexity for grant recipients while increasing the consistency of information
- Streamline HHS data dissemination and collection during award
- Provide uniform external messaging from HHS aligned to data standards
